What is Short Term Disability insurance?

Short Term Disability (STD) insurance can help you replace a portion of your income during the initial weeks of a Disability.

Eligibility Requirements

Short Term Disability: All active full-time employees working at least 20 hours per week are eligible to participate.

How is “Disability” defined under your Plan?

Generally, you are considered disabled and eligible for short term benefits if, due to sickness, pregnancy or accidental injury, you are receiving appropriate care and treatment and are complying with the requirements of the treatment and, you are unable to earn more than 80% of your predisability earnings at your own occupation for any employer; and you are unable to perform each of the material duties of your own occupation.

For a complete description of this and other requirements that must be met, refer to the Certificate of Insurance provided by your Employer or contact your MetLife benefits administrator with any questions.

What is the benefit amount?

Short Term Disability:

The Short Term Disability benefit replaces a portion of your predisability earnings, less the income that was actually paid to you during the same Disability from other sources¹ (e.g., state disability benefits, no-fault auto laws, sick pay, vacation pay, etc.).

The amount you elect in increments of \$100, subject to a minimum election of \$200, not to exceed the plan's maximum benefit of the lesser of 60% of weekly earnings or \$1,200.

When do benefits begin and how long do they continue?

Short Term Disability:

Benefits begin after the end of the elimination period. The elimination period begins on the day you become disabled and is the length of time you must wait while being disabled before you are eligible to receive a benefit. The elimination periods are/is as follows:

For Injury: 30 days.

For Sickness (includes pregnancy): 30 days.

Benefits continue for as long as you are disabled up to a maximum of 13 weeks, including the elimination period. Disability benefits are paid up to a maximum of 9 weeks under the plan as long as you continue to meet the definition of disability.

Your plan's maximum benefit period and any specific limitations are described in the Certificate of Insurance provided by your Employer.

Questions & Answers

Q. Can I still receive benefits if I return to work part time?

A. **Maybe.** As long as you are disabled and meet the terms of your Disability plan, you may qualify for adjusted Disability benefits.

Your plan offers financial and Rehabilitation incentives designed to help you to return to work when appropriate, even on a part-time basis when you participate in an approved Rehabilitation Program.

While disabled, you may receive up to 100% of your predisability earnings following your return to work when combining your disability benefit, incentives, your work earnings and income from other sources.

With the Rehabilitation Incentive you can get a 10% increase in your weekly benefit.

If you work or participate in a rehabilitation program while disabled, following the 4th weekly benefit payment, the Family Care Incentive provides reimbursement up to \$100 per week for eligible expenses, such as child care.

You may be eligible for the Moving Expense Incentive if you incur expenses in order to move to a new residence recommended as part of the Rehabilitation Program. Expenses must be approved in advance.

Q. Are there any exclusions for Pre-Existing Conditions?

A. **Yes.** Your plan may not cover a sickness or accidental injury that arose in the months prior to your participation in the plan. A complete description of the pre-existing condition exclusion is included in the Certificate of Insurance provided by your Employer or contact your MetLife benefits administrator with any questions.

Q. Are there any exclusions to my coverage?

A. **Yes.** Your plan does not cover any Disability which results from or is caused or contributed to by:

- Elective treatment or procedures, such as cosmetic surgery, reversal of sterilization, liposuction, visual correction surgery, in-vitro fertilization, embryo transfer procedure, artificial insemination or other specific procedures.
